How-To Guide

This is a **self-directed workbook.** Read each module intro together, then complete the worksheets as a couple. No finance background required.

TWO WAYS TO WORK THROUGH IT

One module per week

Do one module at your weekly or monthly money date. 30–45 minutes per session. 6 weeks to a complete financial plan. Best for couples who want to take their time and have real conversations.

⚡ In one sitting

Block 2–3 hours together and work through all 6 modules in one focused session. Best for couples who want to get everything on the table at once and leave with a complete plan.

BEFORE YOU START

- ☐ Fill in the cover page first — add your names and start date. This is your workbook now.
- ☐ Gather your numbers — have your latest bank statements, debt balances, and investment account totals accessible before Module 3.
- ☐ No blame zone — whatever the numbers say, you're here together. Curiosity over criticism.
- ☐ Sign the commitment page last (Module 6) — it means more after you've done the work.

To print: Open in your browser → File → Print → All Pages → Save as PDF or send to printer.
To fill digitally: Open in Adobe Reader (free at adobe.com) or Preview (Mac). Fill fields and save as a new file with your names — e.g. *"Smith-Jones Blueprint 2025.pdf".*

THE 6 MODULES AT A GLANCE

MOD 1 · Budget Choose your method + build your joint framework	MOD 2 · Invest The priority ladder — where to put money first	MOD 3 · Debt Avalanche vs snowball — your attack plan
MOD 4 · Goals Name your shared goal + fund it with a real number	MOD 5 · Protect Insurance + estate basics checklist	MOD 6 · Roadmap 12-month quarterly plan + commitment page

Before you begin

TWO WAYS TO WORK THROUGH THIS

⏱ One Session

Work through all 6 modules in one 2–3 hour sitting. Make it a money date — coffees on, phones away, both partners present.

📅 One Per Month

Do one module per money date over 6 months. Ideal if one topic feels heavy — Module 3 (debt) is often the one couples need extra time with.

1. Start with the cover page. Add your names and today's date. This makes the workbook yours — not a template, but a record you both started together.

2. Print it or fill digitally in Adobe Reader. Adobe Reader is free at adobe.com. Fill the fields and save a copy with your names in the filename — e.g. *"Smith-Jones Blueprint 2025.pdf"*.

3. Both partners participate. The exercises are designed for two people. You can read through it first — but don't fill it in alone. The value is in the shared decisions.

4. End with Module 6. The commitment page is the close — both signatures, both dates. Don't skip it. That signature is the moment you go from filling in a workbook to making a plan.

A note on Module 2 (Investing): The investment priority ladder is an educational framework — not personalised financial advice. For advice specific to your situation, work with a licensed financial advisor.

MOD 1

Budgeting as a Team

Build a joint system that works for both your money personalities

⏱ 20 min

The core idea: A budget isn't a restriction — it's a permission slip. When you build it together, it reflects both your values. The goal isn't a perfect spreadsheet; it's a shared agreement about how your money moves.

CHOOSE YOUR BUDGET METHOD

50/30/20

The 50/30/20 Rule

50% needs · 30% wants · 20% savings & debt. Best for couples new to budgeting — simple, flexible, and easy to split.

Zero-Based Budget

Every dollar gets a job until income minus expenses = $0. Best for couples who want maximum control and intentionality.

Pay Yourself First

Save + invest first, spend the rest freely. Best for couples who hate tracking but are consistent with automation.

The Envelope System

Cash (or digital) envelopes per category. Spend until it's gone. Best for variable spenders who need a hard limit.

MOD 2

Joint Investing Basics

Where to put money and in what order — the investment priority ladder

⏱ 25 min

The core idea: You don't need to be experts. You need a system. Start with tax-advantaged accounts, automate contributions, and invest in low-cost index funds. Time in the market beats timing the market — every time.

This framework is for educational purposes only. For advice specific to your situation, work with a licensed financial advisor.

THE INVESTMENT PRIORITY LADDER

1. **Employer 401(k) Match** — Done? ☐
   Contribute enough to get the full match — it's a 50–100% instant return. Non-negotiable first step.
2. **High-Interest Debt** — Done? ☐
   Pay off any debt above ~7% interest before investing further. The math favours debt payoff at high rates.
3. **Emergency Fund** — Done? ☐
   Build 3–6 months of expenses in a high-yield savings account. This is your financial shock absorber.
4. **Roth IRA / Traditional IRA** — Done? ☐
   Max if eligible ($7,000/person in 2025). Roth = tax-free growth. Traditional = tax deduction now.
5. **Max 401(k) Contributions** — Done? ☐
   After the match, max the rest ($23,500/person in 2025) before taxable accounts.
6. **Taxable Brokerage** — Done? ☐
   Once tax-advantaged accounts are maxed, invest additional savings here in index funds.

OUR INVESTMENT PLAN

MOD 3

Debt Payoff Strategy

Choose your method and build your attack plan together

⏱ 30 min

The core idea: Debt doesn't disappear by ignoring it — but it does disappear faster when you attack it with a plan. Choosing a method together and committing to it changes everything. The method matters less than the momentum.

🔥 AVALANCHE METHOD

Pay minimums on all debts. Put every extra dollar toward the highest interest rate debt first. Mathematically optimal — saves the most money.

Best for: analytically minded couples who are motivated by data.

⛄ SNOWBALL METHOD

Pay minimums on all debts. Put every extra dollar toward the smallest balance first. Costs slightly more in interest but provides fast wins.

Best for: couples who need motivation and visible progress to stay on track.

We're choosing: ◯ Avalanche ◯ Snowball Our extra monthly payment amount: $ ______

OUR DEBT ATTACK PLAN

MOD 4

Your First Shared Goal

Pick it, plan it, fund it — and make it meaningful to both of you

⏱ 25 min

The core idea: Couples who save toward shared goals build more wealth — and stronger relationships — than those who manage money separately. A shared goal is a shared identity. It changes how you think about every dollar.

BRAINSTORM: OUR POTENTIAL GOALS

- [ ] Home down payment
- [ ] Emergency fund
- [ ] Vacation / travel
- [ ] Wedding
- [ ] Baby / family planning

MOD 5

Protecting What You Build

Insurance, wills, and beneficiaries — the unsexy but essential stuff

⏱ 20 min

The core idea: Building wealth takes years. Losing it can take one unexpected event. Protection isn't pessimism — it's the responsible side of financial planning. Most couples skip this entirely. Don't be most couples.

PROTECTION CHECKLIST

INSURANCE

- ☐ Health insurance — both covered? Provider ___________
- ☐ Life insurance — amount adequate? Partner 1: $ ___________ Partner 2: $ ___________
- ☐ Disability insurance — covers 60-70% of income?
- ☐ Renter's / homeowner's insurance — updated value?
- ☐ Car insurance — right coverage level?
- ☐ Umbrella policy (if high net worth)?

ESTATE BASICS

- ☐ Will / testament — both have one?
- ☐ Beneficiaries updated on all accounts (401k, IRA, life insurance)?
- ☐ Power of attorney designated?
- ☐ Healthcare directive / living will?
- ☐ Emergency binder: passwords, accounts, contacts — accessible to both?
- ☐ Both partners know where all financial documents are?
