*"You have the engine. You have the map.
This is the gas pedal — 12 months of structured execution."*

NEW TO OURSTEADY? To get the most from this product, read the companion How-To Guide first — it walks through every section step-by-step.

[How-To Guide](#)

This is not another strategy guide. You already have the Blueprint for strategy and the Tracker for data. The Accelerator is your *operating system* — structured agendas, quarterly resets, and decision frameworks that turn your plan into action.

● THE 4-LAYER PRODUCT SUITE

● HOW THIS SYSTEM WORKS

Monthly · 45 Minutes

- ☐ Same day each month. Calendar it like a real appointment.
- ☐ Follow the pre-built agenda. No blank pages — every minute has a job.
- ☐ End with one shared commitment and one action item each.

Quarterly · 90 Minutes

- ☐ Every 3 months, do a deeper review. Net worth, goals, strategy.
- ☐ Adjust your Blueprint if life changed — new job, move, baby.
- ☐ Celebrate progress before planning the next quarter.

● BEFORE YOU START

- ☐ Have your Tracker accessible. You'll reference last month's numbers in every Money Date.
- ☐ Have your Blueprint completed. The Accelerator assumes you know your budget method, debt strategy, and investment ladder.
- ☐ Both partners present. This system is designed for two people making decisions together.
- ☐ No blame zone. The agenda keeps you on the same side of the table.

🖨 To print: Open in browser → File → Print → All Pages → Save as PDF.

💻 To fill digitally: Use Adobe Reader or Preview. Save as "Smith-Jones Accelerator 2026.pdf".

The core idea: Every month has a theme. Every quarter has a milestone. You don't drift through the year — you drive through it with intention.

\$ ← Celebrate!

Celebration planned:

How are you celebrating?

Screenshot this calendar at the start of the year and pin it somewhere visible — the fridge, a shared note, your phone. Seeing the full year keeps you accountable to the whole picture.

The 45-Minute Structure: Every monthly Money Date follows the same 5-part rhythm. This removes decision fatigue and keeps you from wandering into argument territory.

● THE 5-PART MONEY DATE RHYTHM

● MONEY DATE RULES

- ☐ Same time, same place. Consistency beats intensity.
- ☐ Phones away, numbers open. Have your Tracker and bank apps visible.
- ☐ Curiosity over criticism. "Help me understand" works better than "Why did you."
- ☐ End with a win. Even if numbers are messy, find one thing you did well.
- ☐ One conversation at a time. If a hard topic surfaces, use your Money Scripts Cheat Sheet.

● OUR MONEY DATE SETUP

Logistics

Day of month: _____

Time: _____ Location: _____

Reminder set? ☐ Phone ☐ Calendar

Our Non-Negotiables

- ☐ We never skip two months in a row
- ☐ We bring the numbers, not just feelings
- ☐ We end with one action item each
- ☐ If we fight, we use the Repair Script

Before Month 1 begins, do this.

Month 0 is your onboarding ritual — not a review month. You're setting your starting point, choosing your year's focus, and committing to the system together before January's clock starts ticking.

● STEP 1 — SET YOUR BASELINES (30 MIN)

Net Worth Today

Assets - Liabilities

\$ _____

This is Month 0. You'll compare each month.

Monthly Savings Rate

$(\text{Savings} \div \text{Income}) \times 100$

____ %

Target: 20%+. Where are you today?

Total Debt Balance

All debt combined

\$ _____

Update this each month as it shrinks.

● STEP 2 — CHOOSE YOUR YEAR'S FOCUS

Every year needs a theme — one priority that shapes your decisions. Check yours:

☐ 🏠 Build our emergency fund to 6 months

☐ 💳 Eliminate one major debt category

☐ 📈 Increase investment contributions by 5%

☐ 🎯 Save for a specific shared goal

☐ 🏠 Build toward a down payment

☐ 🌈 Other: _____

Our Year's Focus (write it in plain language):

This year, we will _____

● STEP 3 — SCHEDULE YOUR 12 MONEY DATES NOW

Block your recurring monthly date now — before life fills the calendar. Research shows that pre-committing a time dramatically increases follow-through. A recurring date works better than deciding each month.

Our monthly money date:

e.g. 1st Sunday, 10am

Added to both calendars?

☐ Partner 1 ✓ ☐ Partner 2 ✓ ☐ Set as recurring

- ☐ Update auto-pay amounts after raises
- ☐ Annual automation audit (August Money Date)

[illegible]

💡 Pro tip: Set all auto-transfers for the day after payday. Money moves before you can spend it. If you can't see it, you won't miss it.

The core idea: Net worth is your financial scoreboard. Tracking it monthly — and projecting it forward — turns abstract goals into concrete milestones.

The core idea: Taxes and insurance are where couples leak the most money without realizing it. An annual optimization audit can save thousands. Do this page in November or with your accountant.

● INSURANCE ANNUAL AUDIT

Life — P2		\$	\$		☐	
Disability		%	\$		☐	
Home / Renter		\$	\$		☐	
Auto			\$		☐	
Umbrella		\$	\$		☐	

💡 Rule of thumb: Life insurance = 10× annual income. Disability = 60–70% of income replacement. Review beneficiaries on all accounts annually.

The core idea: Wealth is built in habits, not heroics. Track the small daily and weekly behaviors that compound into big outcomes. Each habit ties back to a Blueprint module.
